## FORTY-SIXTH CONGRESS.

### DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

**Nothing of Special Note—Long-Winded Discussions the Order—The Exodus Committee at Work.**

HOUSE.

Mr. Acklen, of Louisiana, made a personal explanation relative to charges made in recent numbers of the *N. Y. Herald* and *Detroit Post*, to the effect that he had, during the absence from the House of members of the committee on Foreign Affairs (of which he was not a member), made a report purporting to be the report of that committee on Nicaraguan Claims bill. He referred to those charges as the most malicious and willful preparations of truth on record, and offered a resolution which was adopted directing the committee on Foreign Affairs to examine into their truth or falsity.

Mr. Harris, of Massachusetts, from the committee on Naval Affairs, reported a bill which was referred to a Committee of the Whole, providing a permanent construction fund for the Navy.

Mr. Valentine, of Nebraska, asked leave to offer a resolution instructing the Appropriation committee to report the Land Deficiency bill, with the exception of the items of appropriation relating to the Star service, by the 5th of February.

Mr. Blackburn, of Kentucky, objected.

Mr. Knott, of Kentucky, Chairman of committee on Judiciary, reported a bill which was referred to a Committee of William B. Teller, of Virginia.

Mr. Conger, of Michigan, opposed the bill, on the ground that in his petition the petitioner referred to the late war as "a war between the Southern States and the United States," instead of as "a war of rebellion." The Speaker thought the tone of the petition did not express an disposition on the part of the petitioner to be hypercritical. It was in the usual form, the chair was always on the side of pensioners, and referring to the disabilities of Conger, he did not rank the pensioners and the veterans among the pension class. He continued: The chair would erect them all to a full citizenship, and those who have suffered he would have pensioned. The bill was finally passed—yeas 172, nays 53—a number of Republicans voting with the Democrats and affectionate.

Bills were then passed removing the political disabilities of J. S. Manry, J. Wilkinson and C. C. Semmes, of Virginia.

Mr. Conger, of Michigan, objected to the passage of the bill removing the political disabilities of John Owens, of Virginia, and demanded the yeas and nays, pending which the morning hour expired.

The House then went into a Committee of the Whole.

The House Commerce Committee considered the Regan inter-state commerce bill, and voted to take final action thereon adjourned.

Secretary Sherman was before the Senate Finance Committee to-day and a colloquy took place in which the general financial policy of the Government was discussed.

Before the Exodus committee to day Messrs. Windom and Blair closely cross-examined Charles H. Otey who testified last Monday. He admitted to day that he knew of no member of the Emigrant Aid Society except Mendenhall, nor any outside the Republican, advancing a division of the negroes from Kansas, Indiana, for political purposes. He believed the three men engaged in inciting the emigration were in the pay of the Baltimore & Ohio Railroad Company.

The other testimony was unimportant.

The committee adjourned until tomorrow.

On the private calendar a bill was offered for the relief of certain citizens of Lynchburg, Va., and refunding to them taxes improperly collected from them on manufacturing tolls amounting to \$26,000, which was debated on and laid over to be favorably reported.

After some further business of little public interest the House adjourned until to-morrow.

**General Mahone.**

RICHMOND, Jan. 30.—The Whig General Mahone organ publishes the following: The Manchester *Courier* of yesterday, under an immense display of head lines, perpetrates a stupendous joke upon the Readjusters; the sum and substance of which is, that General Mahone has gone over to the Readjusters. We are not sure that it needs contradiction. Certainly nobody who knows Mahone believes it, and the developments that are rapidly to come will give the hoax its quietus. The *Courier* might as well say that Mahone had gone over to the burghards.

PARIS, Jan. 30.—*The Monde*, organ of the Papal Nuncio here, referring to the mission of Charles S. Parnell to the United States, says: By mouth of a Protestant Catholic Ireland calls Protestant England to account. Whoever outrages justice paves the way for terrible expiations.

**Steamer Sold.**

BALTIMORE, Jan. 30.—The steamer Falcon, of the Chesapeake line, which was sunk in a collision some time since, was sold to-day for \$8,000.

**Iron Advanced.**

PETERSBURG, Va., Jan. 30.—At a meeting of the Western Iron Association here to-day the price of iron was advanced to four cents.

**Cotton Broker's Circular.**

LIVERPOOL, January 30.—This week's circular of the Liverpool Cotton Broker's Association says: "Cotton is in good demand with firm market

throughout the week. To-day there

was a quiet feeling, but quotations for American have advanced. American was in good daily demand at gradually increasing prices. The latest quotations of mixed qualities being 1-lod higher. Sea Island was very fair, required at unchanged prices. Futures opened firm and improved gradually. On Wednesday the tone of the market was strong, the advance amounting to 5-32d a-lod. To-day the market was much quieter, and prices declined 1-lod. The final rates show an advance of 3-32d.

**Governor Pitkin and the Indians.**

WASHINGTON, Jan. 30.—Governor Pitkin, of Colorado, resumed his testimony before the House Committee on Indian affairs this morning. He related his experiences with Jack and other Indians, saying that Mr. Ouray had gradually lost his influence over the younger Utes, and that a feeling of dissatisfaction and a war spirit had for some time past been gaining the ascendancy with them. He said some of the marks of the Utes, and the advance of the West, who were the avowed disciples of Mark Pomeroy and Victoria Woodhull, who did not hesitate at any time in private to declare their belief in community of property, in the destruction of the family relation and in the overthrow of the established form of government and system of society by force, and who not infrequently proclaimed these sentiments from the platform and through the press, made their appearance on the stump and among the people of Colorado, to the great alarm of the people. The most prominent of these fellows is Kansas man, who regard a flight of locust, knowing that it will prey upon every green thing in the country, and devoutly hoping it will sweep away all the wealth when the 8th of September passed, and the plague, as they believed, with it.

**Forgery Miscellany.**

LONDON, Jan. 29.—A circular from Rome to the *Pall Mall Gazette* says the condition of the Pope's health is causing anxiety. He suffers from fits of shivering and great prostration, but persists in his usual occupations.

General Frederick Oakley, a British cavalryman and a writer on religious subjects, is dead, at the age of 78 years.

Lord Beaconsfield is suffering from an attack of gout.

Three deaths from starvation have occurred this week in the neighborhood of Parsonsontown, county of South Ireland.

**Congratulatory.**

CINCINNATI, O., Jan. 30.—Congratulatory dispatches were exchanged yesterday between the mayors of Chattanooga and Cincinnati, on occasion of opening a telegraphic communication over the Cincinnati South Railroad.

**Withdrawn.**

ATLANTA, Ga., Jan. 30.—Rev. T. J. Simon, whose name was before the Senate has withdrawn his application for the appointment for the position as supervisor of the census for the purpose of relieving his friend, Hon. W. H. Felton.

**Colliery Explosion.**

LONDON, Jan. 30.—By a fire-damp explosion in a colliery at Meissen-Saxon yesterday, ten miners were killed and nine others injured. Among the persons who were in the pit at the time of the explosion are unaccounted for.

**Taking.**

AUGUSTA, Maine, Jan. 30.—Several additional Fusionists took seats in the House and there are but four empty chairs in the Senate.

The Auburn Light Infantry departed this morning. No military or extraordinary police force are at the State House now.

**Grant's Opinion of Lee.**

J. R. Young around the World with Grant. Lee was of a slow, conservative, cautious nature, without imagination or humor, always the same, with grave dignity. I never could see in his achievements what justifies his reputation as a leader, but not as a general.

"My odds beat him, and will stand the ultimate light of history, I know it is not true. Lee was a good deal of a general—a desk general, from what I can hear, and from what his officers say—he was not two old for active service—the best service in the field.

At the time of the surrender he was 59 and I was 43.

"His forces used to say that he posed himself, that he was retiring and elusive, and that his headquarters were difficult to find. The commissioners came through our lines to treat, just before the surrender, that one of them remarked on the great difference between our headquarters and those who have suffered he would have pensioned. The bill was finally passed—yeas 172, nays 53—a number of Republicans voting with the Democrats and affectionate.

Bills were then passed removing the political disabilities of J. S. Manry, J. Wilkinson and C. C. Semmes, of Virginia.

## BRICK POMEROY LEAGUE.

### DANGEROUS SECRET ORGANIZATION IN MAINE.

**That Threatens the Destruction of the State—Expense of its Formation and Principles.**

Boston Herald, 29th.

The Portland *Press* says there is in existence in the State of Maine a secret oath-bound organization, professing the most advanced socialistic and communistic doctrines, and sworn to deadly hostility to social order and property rights, as now recognized and established. During the political campaign last summer and fall, speakers from the West, who were the avowed disciples of Mark Pomeroy and Victoria Woodhull, who did not hesitate at any time in private to declare their belief in community of property, in the destruction of the family relation and in the overthrow of the established form of government and system of society by force, and who not infrequently proclaimed these sentiments from the platform and through the press, made their appearance on the stump and among the people of Maine.

The speaker was Mr. Ocelloff, of New York. His talk was on the way to Parsonsontown for a trip on the Western North Carolina railroad. Bound to see the country.

"Why," he continued, "there is the Collins mine in Cabotus county. Now I know some of the members of the secret organization, and their principles are more standing in the State than ever before. They are the most dangerous in the country."

## DAILY NEWS

SATURDAY, JANUARY 31, 1880.

GEO. C. JORDAN, Editor and Prop'r.

The Empress Eugenie has signified her intention of proceeding in March next to Natal *en route* to visit the scene of her son's death in Zululand, which she wishes to reach on June 1st, the anniversary of that sad event. Queen Victoria has ordered the spot marked with a marble shaft.

The Republican State Convention is to meet in Raleigh on July 7. The National Convention meets in Chicago June 2. Neither the State or National Democratic Convention has yet been called, but it is likely that our State Convention will be held early in June and our National Convention towards the end of that month.

It is very evident that the nomination of Colonel Thomas M. Holt for Governor has a strong following. His identification with the manufacturing and farming interests of the State is a strong claim upon the suffrages of those who wish to see a non-professional politician nominated.

The French Parliament has appropriated six hundred thousand francs for the preliminary survey of the trans-sahara railroad. This projected railway across the Great Desert is to extend from Algiers to Timbuctoo via Insubil. It will open by the shortest route, Central Africa to Europe and its civilization and trade.

COLONEL KROON is a pronounced supporter of Grant for the third term. He thinks the General is the coming man, and that the recent anti-Grant movement is only a little gush created by the candidates, who seek to take advantage of his absence. If a Southern man is selected for second choice he thinks it will be Judge Settle; if a Northern man, it will be Senator Blaine.

The election of Cyrus W. Grady, Esq., instead of Colonel L. W. Humphrey, as chairman of the State Republican Executive Committee is regarded as a triumph of the Sherman men over the Grant men. It is daily more apparent that we shall not have Grant to beat and we can beat Sherman or Blaine just as easily as it makes no difference to us whom the opposition nominates. The next President will be a Democrat. You hear us.

POSTMASTER JAMES, of New York, has addressed a note to the Misses Parrott, of New Jersey, sisters of Mr. Parrott, M. P., giving them permission to place collection boxes for the "Irish famine relief fund" at designated places in the post office building in that city. It is understood that the proprietors of a number of leading hotels throughout the city have consented to the placing of similar boxes in their establishments. Messrs. Drexel, Morgan & Co., at New York, have received \$8,921.48 to be forwarded to Dublin. Having sent \$8,770.50, they have on hand a balance of \$150.98.

THE backers of Secretary Sherman for the presidency do not propose to be captured in the inner citadel of their own stronghold,—not if they know themselves. The recent organization of the Blaine Club in Columbus, Ohio, has had the effect to arouse the friends of Mr. Sherman in that city to a renewed interest in his behalf. A call was issued yesterday morning, signed by one hundred leading citizens and business men, advising a mass meeting at some future day, not more than two weeks distant, to organize a Sherman Club, and to take such action generally as will promote his political interests.

It is expected that the meeting when held will be largely attended by residents of other parts of the State, and that the occasion will be improved for perfecting similar organizations in many other prominent places.

SAYS THE BALTIMORE SUN: "The Pirates of Penzance, it is claimed, is not entitled to the protection of American copyright law, and may be pirated to any extent by 'enterprising' managers in this country. It is not to be lightly supposed that any manager worthy of public consideration would attempt such a thing. If he should, he would probably be awakened to the consciousness of the fact that there is an important difference between statutory and common law in the matter of copyright. The copyright law of the United States which prescribes the exact methods by which a citizen of the country may secure his literary property to himself and his heirs, does not interfere with the operation of the common law, which is so construed as to extend the utmost degree of protection to property in general, and without regard to the nationality of the owner. According to previous decisions the manuscript and music of an opera are private property until they are published, and it has been decided by the courts several times that the mere performance of a piece does not cover such publication as is contemplated by the common law. Under these decisions Messrs. Gilford and Sullivan are reasonably secure, and they will probably be able to arrest, by the process of injunction, any illicit attempt to perform their opera."

**IRON AND STEEL.** The Baltimore Sun says the evidences of the revival of the iron trade within the past six months, but more especially toward the close of the year, both at home and abroad, multiply in a marked degree. With this revival there has been a corresponding rise in prices. The importations of rails from England have not been large, but of scrap iron very cheap, because of the lighter duty it bears as compared with other iron. Of manufactured iron in England the largest demand is for rolled iron plates for the construction of steamships. Numbers of them are now being built at all the ship-yards between the Tres and the Clyde, many of which are of the largest size, notwithstanding the cost of building them has increased fifteen per cent more than it was six months ago. In the United States the principal demand is for rails, both of iron and steel, and of such other iron and steel as enters into

the construction of locomotives and other railroad plant. By the cheaper Bessemer process of converting fluid iron into steel the use of the latter for rails is becoming largely extended, and as owing to the fact that the duty on imported steel rails is twenty-eight dollars per ton, which gives to the manufacturers of steel in the United States a monopoly of the market, a bill has been introduced in Congress to reduce the duty on imported steel rails to ten dollars per ton. As might have been expected, this proposition is resisted by the Pennsylvania members of Congress and the press of that State generally. The Philadelphia paper, in protesting against the passage of the bill states that in January, 1879, American steel rails were sold at forty-two dollars per ton. They are now quoted at seventy dollars per ton. At this time English steel rails can be bought at forty dollars per ton, and if Mr. Vanderbilt is to be believed, of better quality and with a longer guarantee of use than the American steel rail. The rise in price, it is claimed, is not because of the larger demand for rails. Granting this to be so, it still remains a fact that steel rails could be imported from England under a duty of ten per cent, and the cost of transportation added for less than fifty dollars per ton. The American public is now required to pay twenty dollars per ton more for the home article, and a like and in some instances a larger difference for steel plates and bars. The reason assigned for sustaining such a monopoly at the expense, not only of the users of steel, but of the general public, which has to pay the difference in price in the articles into which steel enters, in whole or in part, is so entirely in the interest of the one class, as against all others, that it ought not to be entertained any longer. The tariff should be reduced.

### PERSONAL.

Hon. Clarkson N. Potter and his eldest daughter sailed from New York to Liverpool on the 28th on the Galveston.

To give a State dinner in St. Petersburg a United States minister must pay from \$25 to \$50 a plate and even more.

Society belles in Washington now affect the banjo, which they are learning to play. There are many costly ones with ebony handles and silver mountings.

Judge Hilton, A. T. Stewart's executor, has bought Woodlawn Mansion, near Saratoga Springs, and is laying out a park there, in which are already six miles of drives.

George Grant expects to cruise among the West Indies in a naval vessel for a fortnight or so, bringing up at Vera Cruz about the 15th or 16th of February. General Patterson will join him there.

José Billing (Henry W. Shaw) is sixty-three years old, and in early life had varied fortunes, from those of a servant boy to those of an auctioneer. He has made from his writings something like \$100,000.

Joaquin Miller will go on the stage in New York this week for charity's sake. He will act the part of a California miner—a bold swagger of the Pacific coast—and will be loaded down with pistols, knives and money.

It is stated that ex-Judge Henry L. Clinton has given his services to the cause of \$2,000,000 against Mr. Wm. H. Vanderbilt for professional services rendered in the contest over his father's will, Mr. Vanderbilt having declined to pay the bill on the ground that it is excessive.

The following statement from a well known citizen of Granville county is but another proof of the remarkable virtue of Mrs. Joe Person's Remedy: "Last March I bought a bottle of Mrs. Joe Person's Balsam and some of the water to mix with it. I was greatly afflicted with Sore Throat, the doctors had attended him for two years and did him no good, they recommended Sarsaparilla, Iridine and other medicines which I tried without any benefit. I had not used Mrs. Person's Remedy more than a week before I found myself well again. I continued to use it until I had given him four bottles, and I am glad to say, he is now well. I know it to be all she claims for it, a certain cure for Sore Throat, and unequalled as a Tonic and blood purifier. It ought to be in every drug store in the United States."

W. S. FARABOW, Tally Ho, N. C., Jan. 20, 1880.

The medicine can be obtained in Raleigh from Wm. Simpson, F. H. Heart and Pescud, Lee & Co. Persons obtain their testimonials of cures, obtain circulars by application to them or Mrs. Person.

**Show Make their Yarns Consist.**  
Louisville Courier-Journal.

The agent of Exodus Windom at Terre Haute, Ind., says in his paper, the "Express," that the "fugitive" negroes who have alighted in that city, from the bloody massacres of the Southern States, are "as well clad better, in fact, than the average person in this section, and have no indication whatever of being paupers"—a little circumstance which proves that the story of the blood-hounds and living on roots and dried beans in the swamps is a pure fiction. The exodus agents should make their yarns consist.

#### The Fresh Journalist.

In the line of stupidity, nothing approaches the performance of the new paper, who writes a column or two of salutary, principally devoted to apology for his enterprise. The new editor usually makes a splendid exhibition of modesty, and is a good example to all, and appeals to his readers for forbearance. He is confident that the public is already penetrating his modest habiliments, and discovering in him a man of prodigious intellect and unparalleled capacity for business. But frequently the poor soul labors at his word. That is why there are so many wrecks in the stormy coast of journalism.

#### Entirely Recovered.

NEW YORK CITY, June 16, 1879.—H. J. MARSH & CO.—Gentlemen: I hereby certify that my wife has been using Warner's Safe Kidney and Liver Cure for Bright's Disease and Liver, and is now entirely recovered. When all physician's remedies failed, she was induced to try your remedy, and received beneficial results from the first bottle. After taking four bottles, she was entirely cured. Yours truly,  
ROBERT B. FITZGERALD.

## Cuticura

BLOOD AND SKIN HUMORS,  
The Scourge of Mankind. Old Methods of Treatment and Remedies die a Failure.

CUTICURA, the Great Blood Purifier and Liver Remedy, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine for years after taking it, showing that it has entered the circulation and been carried to every part of the system. It cures Arteritis, Rheumatism, Scurf, Scrofula, Cancer, and Cancer, those terrible blood poisons that rot the machinery of life. It cures the skin with its contact. Taken internally in connection with the external application of CUTICURA, the Great Skin Remedy, it speedsily cures all diseases and disorders, with perfect success. It cures Rheumatism, Psoriasis, Ringworm, Sealed Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

**ECZEMA ON THE SCALP,**  
BREAST AND LIMBS CURED.

Messrs. WEERS & POTTER, Galesburg—I cannot refrain from adding my debt of gratitude to you for having placed within my reach such a valuable Remedy, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time, have rid me of all my skin diseases. I did not go with all physicians two years ago believing they did me no good. The CUTICURA has stopped all my skin diseases, and I am now in full health again. I also found it a great help in curing my Eczema, Cancer, and Cancer, those terrible blood poisons that rot the machinery of life. It cures the skin with its contact. Taken internally in connection with the external application of CUTICURA, the Great Skin Remedy, it speedsily cures all diseases and disorders, with perfect success.

## DAILY NEWS

SATURDAY, JANUARY 31, 1880.

Entered at the Postoffice at Raleigh, N. C.  
as second-class matter.

### Weather Report.

WASHINGTON, Jan. 30.—For the South Atlantic States areas of falling frost by rising barometer, easterly winds, shifting to southwest and northwest slight changes in temperature.

### Index to New Advertisements.

NILTON NOBLE—Tucker Hall.

### LOCAL BRIEFS.

Revenue receipts yesterday \$2,563.

The Treasurer issued a drummer's license yesterday to Augustus Wright, Petersburg, Va.

Fayetteville street was so blocked yesterday with people, that an attempt to drive through it would have proven a laughable failure.

Coleman T. M. Holt, of Haw river; Collier, John W. Cunningham, of Person, and W. J. Best, Esq., of New York, are among the prominent guests of the Yarboro House.

The excitement was varied yesterday. After the rope walkist had heated and somewhat personal presidential controversy occurred between a Grant boomer and a Sherman boomer in the Yarboro in front of the post office.

Prof. Dare walked the tight rope yesterday morning and afternoon suspended from the Fisher and Williamson & Upchurnd buildings. He attained an unusually large and attractive audience, and performed remarkably well.

Work on the new Catholic church in course of erection on the old Cowper lot, corner of Hillsboro and McDowell streets, is progressing rapidly. Mr. Cowper has moved to the rock house on north Halifax street.

W. J. Best, Esq., from New York, is in the city again. It is said that he is the bearer of a revised and amended proposition from the Syndicate to purchase the Western North Carolina roads. Mr. Best is recognized as a general fine executive and financial ability, pleasing address and distinguished bearing.

The Charlotte *Democrat* has the following to say of an esteemed citizen of this city. This community will regret very much to learn that there is a prospect of losing so worthy a member: "We are pleased to find that there is a prospect of Dr. G. W. Graham's [Bar, Eye, Throat Physician, locating in this city. We think there is a good opening here for a specialty of that sort. Dr. Graham is now in the city and can be consulted at Jones & Graham's office, over Wilson & Burwell's Drug Store."

**Republican District Executive Committee.**

As this committee will, it is presumed meet in a few weeks, for the purpose of appointing two delegates to represent the Fourth District to the Chicago Convention, the names of the persons composing it are reproduced from files of October, 1857, as follows:

H. B. Guthrie, Orange, chairman.

Chatham—Dr. A. B. Chapin.

Franklin—B. P. Bullock, Jr.

Greensboro—John H. Moore,

Johnston—P. T. Massey.

Nash—G. W. Robbins.

Orange—Lewis Jenkins.

Wake—Stewart Ellison,

**Supreme Court.**

Court opened yesterday morning at 10 o'clock. Associate justices Ashe and Dillard were present.

The consideration of appeals from the Third Judicial District was resumed the causes were disposed of as follows:

T. D. Durham vs. Wilmington & Weldon R. R. Company, from Pender; argued by A. T. and J. London for the plaintiff, and D. J. Devane and Stedman & Latimer for the defendant.

J. L. Williams vs. D. Davis, Sheriff, from Onslow, argued by Green & Stevenson and T. S. Kenan for the plaintiff, and A. G. Hubbard for the defendant.

Stephen Winberry vs. F. D. Koonce, from Onslow; called and set for hearing at the end of the District.

John C. Gandy & Co. vs. Carter Pope and wife, Mrs. Nachi argued by G. V. Strong and G. M. Smeles for the plaintiffs, and Bunn & Battle for the defendants.

William Harris vs. E. N. Bryant, et al., from Nash, argued by C. M. Cook for the plaintiffs, and Bunn & Battle for defendant Cook.

Court adjourned until this (Saturday) morning at 10 o'clock.

**Milton Nobles.**

Is coming. This time he will appear in a new play, which is said to be even better than "The Phoenix," which has been presented in this city heretofore by his company. The following extract is taken from the Cincinnati *Enquirer* of March 18, 1879:

"Milton Nobles, in his personation of Jack Ryder, the Man of the People, is as much an artist as Joe Rip Van Winkle. The latter is an idealization of one of Irving's portraiture intended to appeal to the sympathies of the public in behalf of the outraged wife but of the upstart, the son-in-law, etc. The former is a man of the people, in the acting, and a dry humor in the sayings that engross the attention. There is a keenness of retort that rises to brilliancy, in short, the spectator thoroughly identifies the actor with the character.

**Prescription Free.**

**What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.**

In the treatment of Dyspepsia, Chlorosis, Anemia, Nervous and Rock Headache, Dysentery, Membranous Inflammation, diseases of the Kidneys and Bladder, and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F. BARRE, M. D., Abingdon, Va.

I have found no single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chlorosis, Diathesis, Anemia, Nervous and Rock Headache, Dysentery, Membranous Inflammation, diseases of the Kidneys and Bladder, and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

G. M. T. HARRISON, M. D., New York City.

From my experience with the "Iron and Alum Mass" I believe it will prove the best medicine we have in use, for chronic diseases.

G. M. D. PATTERSON, M. D., Ewingwood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY, DeView, Ark.

We could extend this list into the thousands with such testimonial from physicians from every part of the country that are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from drugists always mention Seven Springs Mass. Price \$1 per package or six for \$5, send by mail, postpaid.

**DOWNTOWN MERCHANT.**

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, purchased a supply of the same, and, on reaching home, and ascertaining his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents with sleepless anxiety, however, having the doctor from the father from the bay still worried, and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered the syrup, and the child slept soundly and peacefully. That night all slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first dubious of the propriety of its use, has continued to use it ever since, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Drugists at 25 cents a bottle.

The former is the realization of a character like one of Mark Twain's—a shoulder-hitter and wad politician—drunk more than half his time, yet popular, a favorite, a stolid drunkard who, though a fool, is not contemptible; and he trots the serpent under his heel, proves himself a champion of virtue and clean living, and finally takes that place in which he is properly belongs—a leader to be respected.

It is true that the "Man of the People" is a popular drama, so called; intended to catch the crowd. It is true, nevertheless, that educated and intelligent people can enjoy and find a good whodunit letter in Mr. Nobles' *Actor*. There is nothing more earnest in the acting, and a dry humor in the sayings that engross the attention. There is a keenness of retort that rises to brilliancy, in short, the spectator thoroughly identifies the actor with the character.
